What We're All About

Since 1958, Hilltop Daycare Centre has been providing full-service daycare for children in Toronto's East end. As Scarborough's first daycare, our program is constantly evolving and any improvement to our curriculum through suggestions is welcomed.

The focus of our children's center is to provide an enriched program that enables the children to develop in a warm and caring atmosphere. Each child will have the opportunity to grow emotionally, socially, intellectually, creatively, and physically. By designing a stimulating program, the children will not only acquire new skills, but also form a positive self-image.

At our center, each child is viewed as an individual with his or her own special needs and is encouraged to have independence through developing problem-solving techniques.

Through interactions with child and teacher, we want to establish positive verbal and non-verbal reinforcement by providing a flexible curriculum that is child-oriented and teacher-guided. Our center will provide a home-like atmosphere of informality, security and planned/unplanned experiences in which children can learn and grow.
